**My Business:** We create memorable experiences for corporate clients who visit our beautiful city. We provide extensive local knowledge and assist groups with a variety of services, such as planning unique dinners, tours, transportation, activities, team building, decor and entertainment.

**My Strengths:** I'm detailed, outgoing and passionate. Oftentimes, for one client I can manage more than 40 vendors to make an event happen. I have never met a stranger! A believer in giving back to my industry, I serve on the Downtown Business Association and Visit Savannah boards and teach in the hospitality program at Savannah Technical College.

**You'd Never Guess:** I flew in the cockpit of a 747. I did my high school practicum at Key Airline when they were headquartered in Savannah. They had an empty plane going to the Bahamas. They received FAA clearance, and I was allowed to ride "jump seat" in the cockpit – probably one of the neatest things I've ever done.
